## NAIROBI ACTION PLAN

Commits relevant States Parties to establish and enhance:

- 
- ▶ national data collection capacities for information related to mine victims and victim assistance;
  - ▶ services for the emergency and continuing medical care of mine victims;
  - ▶ increased physical rehabilitation capacities;
  - ▶ increased psychological support and social reintegration services;
  - ▶ support for economic reintegration; and
  - ▶ development and implementation of national legal and policy frameworks to effectively address the needs and rights of mine victims and other persons with disabilities.

## NAIROBI ACTION PLAN

Calls upon other States Parties

"to promptly assist those States Parties with clearly demonstrated needs for external support....ensuring continuity and sustainability of resource commitments."

## FIRST REVIEW CONFERENCE

- ▶ "...the call to assist landmine victims should not lead to victim assistance efforts being undertaken in such a manner as to exclude any person injured or disabled in another manner"
- ▶ "assistance to landmine victims should be viewed as a part of a country's overall public health and social services systems and human rights frameworks"
- ▶ "...providing adequate assistance to landmine survivors must be seen in a broader context of development and underdevelopment...."

# Guide to the Process of Developing a National Response to Landmine Victim Assistance

- 
- ▶ Designate an intersectoral group to oversee the process
  - ▶ Assign responsibility for the process
  - ▶ Situation analysis
  - ▶ Review situation analysis
  - ▶ Prepare a set of SMART objectives
    - Specific – Measurable – Achievable – Relevant – Time-Based
  - ▶ Develop a national plan of action
  - ▶ Resource mobilization
