### 2. Description of projects

**2.1. Mine clearance:** support for the implementation of Action III of the Maputo Action Plan including national planning and reporting in up to five affected States Parties

#### 2.1.1. Project objective

Up to five States Parties to the Convention are supported in the implementation of the mine clearance aspects of the Maputo Action Plan.

#### 2.1.2. Project description

— Support will be provided by the ISU to up to five States Parties in facilitating national stakeholder dialogues. Eligible States Parties have upcoming mine clearance deadlines in 2018, 2019, 2020 and beyond. The Convention's Committee on Article 5 Implementation will be involved in the selection of the recipient States Parties.

— The national stakeholder dialogues will be facilitated by the ISU, in collaboration with stakeholders, such as relevant government officials, representatives from mine-affected populations, mine action donors, including relevant Union entities, mine clearance organisations, the International Campaign to Ban Landmines ('ICBL'), UN agencies and the GICHD. As appropriate, those key actors will be directly involved in the implementation of the project subject to the conditions to be developed in the budgetary impact statement. The dialogues will produce a detailed outcome document highlighting geographically specific information on remaining areas requiring survey and clearance, methodologies to address remaining areas and challenges faced in fulfilling mine clearance obligations and recommendations on overcoming those challenges as well as milestones to address identified challenges. The national stakeholder dialogues will incorporate gender and diversity aspects of mine clearance at the design, management and implementation levels.

— Follow-up actions, in up to five instances, will be undertaken in response to recommendations contained in the outcome documents. Those follow-up actions will provide additional technical support by the ISU (e.g. for drafting/updating of national demining action plans, the development of a project proposal or proposals, etc.).

#### 2.1.3. Project results

— The stakeholder dialogues will provide a detailed outcome document setting out the remaining challenges, with objectives, timelines and recommendations for further action.

— The States Parties selected for the national stakeholder dialogues will be able to articulate the status of implementation of the Convention and the Maputo Action Plan as well as to improve their annual reporting to the States Parties on the implementation of their obligations by their deadline.

— The selected States will develop practices in building and fostering partnerships, including with donors and mine clearance organisations, to ensure that they support efforts to fulfil their obligations in as short a time as possible.

— The selected States will be able to better articulate their intentions to fulfil the Maputo Action Plan commitments and their need for support, for example for drafting and updating of national de-mining action plans, the development of a project proposals.

#### **2.1.4. Beneficiaries**

— States Parties to the Convention which are in the process of implementing their mine clearance obligations under the Convention.

— Women, girls, boys and men whose lives are affected by the presence or suspected presence of anti-personnel mines, as well their families and communities.

— National experts working on issues relevant to mine clearance.

— States and organisations supporting mine clearance efforts.
