TAJIKISTAN MINE ACTION PROGRAMME

GENERAL LAND RELEASE OPERATIONAL PLAN FOR 2021-2025

To Demining Organizations:

1. Non-technical and technical survey teams of the Union of Sappers of Tajikistan (NTS/TS UST);
2. Humanitarian Demining Company of the Ministry of Defence of the Republic of Tajikistan (HDC MoD);
3. Norwegian People's Aid (NPA);
4. Swiss Foundation for Mine Action (FSD);

1. LIST OF ABBREVIATIONS & ACRONYMS

<i>Ottawa Treaty</i>	Anti-Personnel Mine Ban Convention, or often simply the Mine Ban Treaty
<i>ER</i>	Extension Request
<i>APM</i>	Anti-Personnel Mine
<i>ERW</i>	Explosive Remnants of War
<i>MF</i>	Minefield
<i>BAC</i>	Battle Area Clearance
<i>SHA</i>	Suspected Hazardous Area
<i>CHA</i>	Confirmed Hazardous Area
<i>TNMAS</i>	Tajikistan National Mine Action Standards
<i>SOP</i>	Standard Operating Procedures
<i>TNMAC</i>	Tajikistan National Mine Action Centre
<i>NTS/TS UST</i>	Non-Technical and Technical Survey teams of the Union of Sappers of Tajikistan
<i>HDC MoD</i>	Humanitarian Demining Company of the Ministry of Defence
<i>NPA</i>	Norwegian People's Aid
<i>FSD</i>	Fondation Suisse pour le Déminage – Swiss Foundation for Mine Action
<i>LR</i>	Land Release
<i>NTS</i>	Non-Technical Survey
<i>TS</i>	Technical Survey
<i>EOD</i>	Explosive Ordnance Disposal
<i>WAD</i>	Weapon and Ammunition Disposal
<i>MC</i>	Manual Clearance
<i>MDM</i>	Mechanical Demining Machines
<i>QM</i>	Quality Management
<i>QA/QC</i>	Quality Assurance/Quality Control
<i>MRE</i>	Mine Risk Education
<i>MFR</i>	Minefield record
<i>IMSMA</i>	Information Management System for Mine Action
<i>TAB</i>	Tajik-Afghan Border
<i>CR</i>	Central Region
<i>DRD</i>	Direct Rule Districts
<i>VMKB</i>	Viloyati Muhtori Kuhistoni-Badakhshan [Province]
<i>MDBF</i>	Main Department of Border Forces
<i>MoD</i>	Ministry of Defence

2. MAIN OBJECTIVE

The objective of this document is to provide information and guidance for Demining Agencies and other governmental, non-governmental and international organizations involved in Land Release operations in Tajikistan during 2021-2025 for planning of their activities.

3. AVAILABLE OPERATIONAL CAPACITY IN 2021

The 2021 Land Release plan is developed based on the following available capacities of the demining Agencies:

- Six manual demining teams of NPA.
- Six manual demining teams of HDC MoD.
- Four non-technical survey and TS teams (UST).
- One WAD team of FSD.

4. REQUIRED OPERATIONAL CAPACITY DURING 2021 - 2025

The Land Release for 2021 - 2025 requires following capacity:

- Eight manual demining teams of NPA.
- Ten manual demining teams of HDC MoD.
- Four non-technical survey and TS teams (UST).
- One WAD team of FSD.

5. EXPLANATIONS OF SOME IMPORTANT TERMINOLOGIES

➤ **Confirmed hazardous areas (CHA):**

An area declared dangerous due to the presence of landmines. This declaration is made during NTS and TS activities based on direct evidence of contamination.

➤ **Temporary Inaccessible CHA:**

Confirmed hazardous area that is temporary impossible to access by land release teams due to terrain, small river islands, mudflows and other constraints, including security. These areas are identified during non-technical survey activities or during technical survey and clearance operations. Warning signs and marking are installed by NTS/TS teams to warn the population about hazard.

Further challenges to access:

A serious challenge faced during last NTS/TS is that in some cases due to long distance on foot it is time and resource consuming to reach some mined areas. For conducting efficient and safe NTS/TS there are some obstacles like existence of several minefields in one MFR is blocking access to others.

➤ **Unsurveyed minefield records:**

There are 20 unsurveyed minefield records (MFR) and 3 SHA (minefields) remaining to be surveyed in VMKB, DRD and Khatlon regions along the Tajik-Afghan border. Based on desk analysis these 20 MFRs and 3 SHA cover an estimated 1,528,852 m². Some unsurveyed minefield records include several minefields and in total there are 30 SHA.

6. OPERATIONAL REPORTS

Operational reports are to be submitted to TNMAC within the following schedule:

- **DAILY REPORT** – every operational day by 9:00 AM. A report must include the following: information on operations starting time, number of teams involved in operations, absent field staff and reasons of absence. This information should be given through phone call by responsible staff of Demining Agencies to TNMAC QA staff;
- **DAYLY PROGRESS REPORT**- by the end of every operational day responsible field staff of Demining Agencies reports Land Release operations into IMSMA Core (Survey 123 - data collection);
- **WEEKLY REPORT (OPERATIONS AND SURVEY PROGRESS FORM)** – to be submitted every Monday by 16:00 PM along with picture of Demolition Act if applicable. (in case of any delay maximum until Tuesday);
- **DEMOLITION ACTIVITIES (ACT)** – hard copy to be submitted one a month (during brake) and picture of Demolition Act along with **WEEKLY REPORT (OPERATIONS PROGRESS FORM)**;
- **SUSPENSION REPORT** – within ten working days after marking and closing of an area;
- **COMPLETION REPORT** – within ten working days after task completion, marking and closing of an area;
- **ACCIDENT REPORT** – within one working day after the accident;
- **VICTIM REPORT**- within one week after accident or one week after NTS carried out
- **SPECIAL EOD REPORT (ACT)** – within 1 week after task completion (EOD spot task);
- **NON-TECHNICAL SURVEY AND TS REPORT** – within one week after task completion;
- **TASK IMPLEMENTATION HANDOVER (SHA-CHA)** – to be filled between responsible staff of Demining Agencies and put in Task Folder after Handover area;
- **REPORT FOR EOD SPECIAL TASK / MINE-ERW DETECTED LOCATION** – immediately after detection/demolition of EO responsible need to submit report to IMSMA Core (Survey123 - data collection).
- **INTERNAL QA/QC FORM** – to be filled by responsible staff of Demining Agencies and put in Task Folder after completion of QA/QC;
- **WEEKLY REPORT FOR OPERATIONS MECHANICAL DEMINING MACHINE** – to be filled by responsible staff of Demining Agencies and put in Task Folder at the end of the working week;
- **CANCELLATION FORM** - within one week after task completion;

➤ POST DEMINING IMPACT ASSESSMENT FORM - within one week after task completion.

7. SCOPE OF THE CONTAMINATION TO BE ADDRESSED

By January 2021, 145 CHAs, 20 unsurveyed minefield records (30 SHA) and 11 battle areas in 15 districts in Central region and along the Tajik-Afghan border remain to be released.

Table I below presents a breakdown of the mine contamination situation in the country. The tables below represent remaining contaminated areas as of January 2021 for planning of land release activities for the period of 2021-2025.

8. REMAINING NUMBER AND SQ. METRES OF AREAS KNOWN OR SUSPECTED TO CONTAIN APM AS OF JANUARY 2021 AND PLANNED TO BE ADDRESSED FOR THE PERIOD OF 2021-2025 (TABLE I):

Table I

Province	Districts	Number of areas known to contain APM	Number of areas suspected to contain APM	Total number of areas known or suspected to contain APM	Amount of area known to contain APM (square metres)	Amount of area suspected to contain APM (square metres)	Total amount of area known or suspected to contain APM (square metres)	
DRD	Central Region	Sangwor	1	2	3	50 000	50 000	100 000
VMKB		Darwoz (Sakgirdasht)	12	2	14	898 610	608 852	1 507 462
Khatlon		Khowaling	1	1	2	80 000	30 000	110 000
VMKB	Tajik – Afghan Border	Darwoz (T-A Border)	2	3	5	58 800	320 000	378 800
		Vanj	6	0	6	908 119	0	908 119
		Shughnon	3	0	3	56 000	0	56 000
		Ishkoshim	0	1	1	0	5 000	5 000
Khatlon	Tajik – Afghan Border	Farkhor	6	1	7	96 800	8 000	104 800
		Hamadoni	3	6	9	80 772	177 000	257 772
		Panj	21	3	24	1 400 072	23 000	1 423 072
		Jaykhun	8	11	19	135 636	307 000	442 636
		Sh. Shohin	80	0	80	3 221 110	0	3 221 110
		Qabodiyon	1	0	1	5 184	0	5 184
		Shahritys	1	0	1	30 000	0	30 000
Total DRD, VMKB, Khatlon		145	30	175	7,021,103	1,528,852	8,549,955	

Remaining Battle Areas:

The total Number of areas known to contain ERW are 11 with a total area measuring **1,553,231 m²**.

In Rasht district - 3 BAs measuring 531,000 m².

Vahdat district - 1 BA measuring 200,000 m²,

Darwoz district - 6 BAs measuring 762,231 m².

Sh. Shohin district - 1 BA measuring 60,000 m².

Prioritization:

Based on priority setting tools minefields located close to villages and other areas important for livelihood will be addressed for land release . This involves accelerating mine action in districts where a concerted effort and relatively modest investment will significantly reduce the threat of landmines and explosive remnants of war (ERW). All information about remaining contamination and clearance rates stored in the IMSMA database and available through the Mine Action Intelligence tool to all partners and Internet users. This year TNMAC will implement IMSMA Core with GICHD support. The system is based ArcGIS technology for real time monitoring the progress, prioritization and efficiency of all Mine Action activities.

➤ In conjunction with GoT and the Border Forces, TNMAC will prioritize land release activities based on the following criteria:

➤ Mined areas with economic and infrastructure impact (agriculture lands, pastures, rice plantations, reconstruction and strengthening of river banks) receive top-priority for NTS and clearance/TS;

➤ NTS tasks: Number of un-surveyed minefield records in each district (larger number of minefield records (MFR) will be considered as priority to deploy NTS teams). Districts with smaller number of minefield records MFR can be surveyed by clearance teams during mine clearance operations;

➤ ***District by district approach.*** This approach was planned in 2020 but due to technical circumstances was not released. In 2021 according to plan Khowaling district after NTS/TS and clearance of the 2 minefields in Shugnow jamoat (local community) will be announced mine free district;

➤ Suspended areas from previous years;

➤ Focuses to Central region from June until September;

➤ Areas requested by Government and Local Authorities;

➤ Conducting Resurvey at the minefields which are hard to reach and have complex of issues.

**9. PROJECTIONS OF THE NUMBER OF AREAS AND THE AMOUNT OF MINED AREA
TO BE ADDRESSED ANNUALLY TO ACHIEVE COMPLETION (TABLE II):**

Table II

Province	Districts	2021	2022	2023	2024	2025	Total
VMKB	Darwoz	262810	273800	210800	488852	650000	1886262
Khatlon	Farkhor	0	0	104800	0	0	104800

VMKB	Vanj	0	0	150400	205000	552719	908119
Total (sq. meters)		1711709	1688814	1641877	1731152	1776403	8549955

Work season:

Demining operations: April – December;

In average 130 working days;

Depending on weather, some areas might be available for starting from March.

Weather conditions and accessibility:

Khaburabod pass of Saghirdasht community (Central Region) is accessible only during 2-3 summer months due to altitude and cold weather. In 2021-2025 NPA and HDC MoD manual demining teams will be deployed to the Saghirdasht community (Central Region). As this area hasn't any MFRs it poses some obstacles for Land Release operations.

The hazardous areas in the Rasht district and Sangwor district are also located in mountains, but they are accessible for longer period from May till October. In 2022 it is planned that Rasht and Sangwor districts (Central Region) as well as Ishkoshim districts (VMKB) will be declared mine/ERW free zone.

Khatlon Region along the Tajik-Afghan border is accessible for land release activities 8 months in a year, from April until November.

VMKB region along the Tajik-Afghan border is accessible for land release activities 6 months in a year from May until October.

Provisions:

All land release operations will be applied in accordance with Tajikistan National Mine Action Humanitarian Standards and approved SOPs.

Expected results during 2021-2025 when the operational capacity is increased:

- At least **7,021,103** sq.m. released (CHA);
- At least **145** mined areas (CHA) released and handed over;
Upon completion of survey activities on 30 SHAs (Central Region and Tajik-Afghan border):
- At least **1,528,852** sq.m. released;
- At least **30** mined areas released and handed over.

10. GENERAL RESPONSIBILITIES OF TNMAC

- Accreditation of demining organizations NPA, FSD, HDC MoD and NTS/TS teams (UST) due to expiration of previous Accreditation time.
- Accreditation of demining organizations due to renewal/development of SOP for Demining operations.
 - Annual accreditation of mechanical asset according to NMAS.
 - Conduct Risk management and identifying risks: political, financial, operational, safety, information, environmental, etc.
 - Timely provide demining agencies with permission from appropriate entities for operations in the border areas by the beginning of March every year.
 - Coordinate and assist demining agencies on obtaining permission for responsible staff and vehicles for transportation and use of explosives and psychotropic medicines.
 - Timely provide demining agencies with Land Release task orders.
 - Conduct periodical appropriate quality assurance of the trainings and land release operations.
 - Conduct quality control of the cleared areas (progressive and final) according to the NMAS.
 - Review and approval of all task implementation plans of the demining agencies according to the NMAS.
 - Ensure that local authorities and the population are informed about all land release activities in their areas in the form of Official Letters from TNMAC to local authorities, MRE sessions, handover procedures of the released lands, post clearance assessment and other relevant meetings and joint discussions.
 - Process and analyse all submitted operational reports and timely communicate with demining agencies on their corrections and/or status.

11. GENERAL RESPONSIBILITIES OF DEMINING AGENCIES WITHIN PLAN:

- Demining Agencies should submit their training package one month before the training and submit report along with test results (including copies of certificates) upon completion of the training.
- Prepare for and pass the Accreditation process including accreditation of addition to SOPs.
- Prepare for and pass the Accreditation process for any Mechanical Assets planned to be used in 2021-2025.

- Obtain permission from Border troops through TNMAC for operations in border areas.
- Obtain permission from MIA RT and other relevant authorities for responsible staff and vehicles for transportation and use of explosives.
- Assist in obtaining permission for the use of psychotropic medicines from the Ministry of Health according to the relevant Laws of the RT;
- Apply all Land Release operations in accordance with the Tajikistan National Mine Action Standards and approved Standard Operation Procedures (SOP) of the IPs. SOP of the IPs must not contradict to the NMAS. In case of update or implementing new methodologies in SOP, IPs must inform TNMAC and get the approval from TNMAC. New methods also must be accredited by TNMAC.
- Based on the Risk management and received recommendations by TNMAC it is necessary for IPs to make changes and amendments in their SOPs and other related parts of the Mine Action activities.
- Conduct training for IPs' field staff according to the NMAS. Prior to commencing training courses, curriculum vitae of trainers and training management documentation are to be submitted for approval to TNMAC.
- Prepare and submit to TNMAC for approval a separate task execution plan for each of the task execution areas operations in the task execution areas after receiving the task from TNMAC. Conduct land release activities according to annual Land Release Work Plan provided to IPs by TNMAC.
- Ensure that local authorities and the population are informed about all mine clearance operations in their areas and the consequences of those operations prior to the start or suspension of operations.
- All operational reports must be submitted to TNMAC timely in accordance with requirements of this document and in accordance with approved templates.

12. LAND RELEASE TASKS

- Deployment of teams will take place according to the task areas and list of tasks, which are given in the Tables IV, V, VI and VII below (not listed in any particular rank or order).
- Operational plans and prioritization may be changed due to weather, relief and other technical reasons.
- In total 175 tasks are prepared for 2021-2025 demining season (Table VII, VIII) out of all remaining hazard areas 30 SHA as of January 2021 (see Table VII), which are distributed among Demining Agencies.
- Additional tasks might be given to Demining Agencies depending to weather, progress, technical or other reasons.
- As discussed at the technical meeting on 28 October 2020, during the planning of LR for 2021 more emphasis needs to be directed only to MF clearance according to the Extension Request 2020-2025.
- In addition, 25 tasks are prepared for re-survey activities for 2021-2023 demining season (Table V), which are distributed among Demining Agencies.
- Areas known and suspected to contain anti-personnel mines as of 31 December 2020, and the estimated date of completion indicated in the annex Table IX (including SHAs on the Tajik – Uzbek Border).

**13. DETAILED WORK PLAN TO ADDRESS REMAINING CONFIRMED
HAZARDOUS AREAS SEPARATED BY YEAR AND BY REGION (TABLE III):**

Table III

Years	Minefree districts	Land release in	Number of areas to be cleared or reduced	Size of area to be cleared or reduced, m ²	Leftover number of areas by the end of each year	Leftover size by the end of each year, m ²
2021	1	CR	9	402810	10	1314652
		TAB	48	1308899	108	5523594
2022	2	CR	5	265000	5	1049652
		TAB	31	1423814	77	4099780
2023	3	CR	1	210800	4	838852
		TAB	30	1431077	47	2668703
2024	2	CR	3	488852	1	350000
		TAB	39	1242300	8	1426403
2025	5	CR	1	350000	0	0
		TAB	8	1426403	0	0

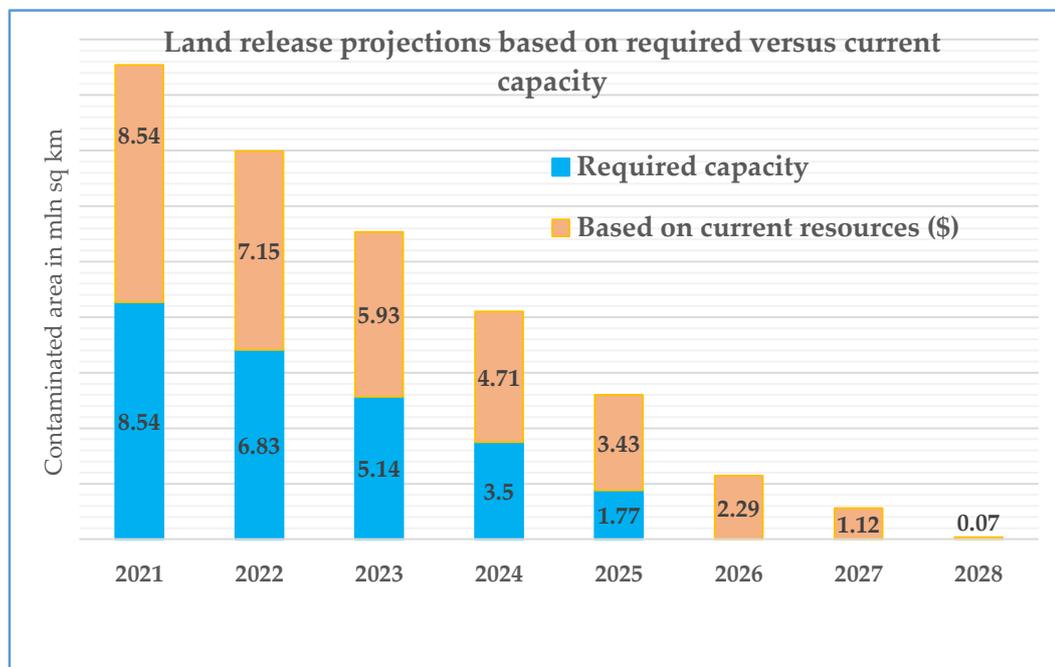

14. IMPLEMENTATION OF GENERAL LR OPS PLAN FOR 2021-2025

➤ To meet the target for the implementation of General LR Ops Plan for 2021-2025 Tajikistan will need to increase its current capacity, from 12 to 18 MC teams (180 deminers);

➤ It should be noted, in 2019-2020, during NTS/TS activities an additional hazard area without MF Records was confirmed and registered; the area size is 1,862,070 sq.m. (CHA - 953,218 sq.m. and SHA – 908,852 sq.m.). In 2020 during the survey of hazard areas in Shamsiddin Shohin district of Khatlon province there have been confirmed 3 minefields in Anjirob - №4, №5 and №6 with total size of 131,080 sq.m., which do not have MF records.

➤ Based on the experience in 2020, when new mined areas were found with support from Border Forces during the process of road construction on the Tajik side of the Tajik-Afghan border, there is a possibility that new unregistered mined areas which do not have MF records will be identified in 2021.

➤ In this regard, to address the remaining challenge of 175 hazardous areas measuring 8,549,955 m² by 2025, TMAP has set an updated annual land release target of 1,700,000m². This is based on the analysis of past performance, as given in the assumptions below:

15. THE REMAINING ADDITIONAL FUNDING CHALLENGE

During 2020, \$ 2,682,610 was spent on mine action: the Government of the Republic of Tajikistan - \$ 48,600, Norwegian People's Aid - \$ 1,290,000, the Representative Office of the Swiss Foundation for Mine Action in the Republic of Tajikistan - \$ 114,750 (WAD Project), the Organization for Security and Cooperation in Europe - \$ 165,858, the US Department of State in the amount of \$ 1,063,402, as well as technical and non-technical assistance in the amount of \$ 480,000 from the Government of the Republic of Tajikistan. To fulfill the obligations of the Republic of Tajikistan under Article 5 of the Ottawa Convention, financial support in the amount of US \$ 28 million is required until 2025 inclusive. This amount is calculated taking into account only manual demining and difficulties associated with the inaccessibility of minefields, the complexity of climatic conditions, mountainous terrain, etc.

Currently Tajikistan has the following international donors, which make their financial contributions to the mine action in the country:

- US Department of State;
- Organization for Security and Cooperation in Europe;
- Government of Norway;
- International Committee of the Red Cross.

In accordance with the developed and approved National Strategy of the Republic of Tajikistan on Humanitarian Mine Action for 2021-2030, funding of humanitarian mine action activities is carried out with grant support from international organizations, foreign states, special funds of ministries and entities, local executive authorities, as well as other sources not prohibited by the legislation of the Republic of Tajikistan.

Year	Annual Milestone (square metres)	Current resources (US \$)	Additional Funding Required for increasing capacity	Total
2021	1711709	3 080 000	2 519 994	5 599 994
2022	1688814	3 080 000	2 469 167	5 549 167
2023	1641877	3 080 000	2 364 967	5 444 967
2024	1731152	3 080 000	2 563 157	5 643 157
2025	1776403	3 080 000	2 663 615	5 743 615
TOTAL	8 549 955	15 400 000	12 580 900	27 980 900

16. PLANNING FOR START SURVEY ACTIVITIES OF HAZARD AREAS ON THE TAJIK-UZBEK BORDER

➤ Tajikistan will continue to provide updates on the development of cooperation with regard to land release along the Tajik-Uzbek border in Article 7 reports and to the Meetings of the States Parties. The number and area size of unsurveyed suspected hazard areas are indicated in the Table IV:

Table IV

District >	Panjakent	Ayni	Asht	Shashriston	Konibodom	Isfara	Total:
Number of areas suspected to contain APM >	13	5	11	2	3	20	54
Amount of area suspected to contain APM (km ²) >	0,71	0,53	0,61	0,12	0,16	1,10	3,2

17. THE ANNUAL CYCLE FOR THE YEARS 2021-2025 OF LAND RELEASE ACTIVITIES
(Timeline and Task's for Demining organizations)

IP's	Jan	February	March	Apr	May	June	July	Aug	Sep	Oct	Nov	December
NPA	Preparation	<p>1. Renewal / development of SOP for Demining operations and prepare for and pass the Accreditation process.</p> <p>2. Trainings: Submit for approval on TNMAC the entire set of documents on the training course before the start of training.</p> <p>3. Planning and Tasking of LR activities: During tasks are handed over for IP's, if possible an on-site briefing shall be conducted. Affected communities may be invited to participate in on-site task allocation briefings or visits;</p> <p>TWG meetings to discuss plans and further steps;</p> <p>Depending on weather, some areas might be available for starting from March.</p>	<p>NPA: 81 tasks for Clearance CHA, area size 3,437,390 sq.m. (1 task for NTS/TS, 4 task for re-survey) are available: 2021 - 25 tasks, area size 785,299 sq.m.; 2022 - 17 tasks, area size 604,545 sq.m.; 2023 - 13 tasks, area size 692,327 sq.m.; 2024 - 23 tasks, area size 684,000 sq.m.; 2025 - 3 tasks, area size 671,219 sq.m.</p> <p>In the period 2021-2025 additional tasks (778,852 sq.m.) to these CHA on completion survey activities on the 15 SHA.</p>	<p>HDC MoD: 64 tasks for Clearance CHA, area size 3,583,713 sq.m. (4 task for re-survey) are available: 2021 - 24 tasks, area size 721,410 sq.m.; 2022 - 11 tasks, area size 892,269 sq.m.; 2023 - 7 tasks, area size 726,550 sq.m.; 2024 - 18 tasks, area size 788,300 sq.m.; 2025 - 4 tasks, area size 455,184 sq.m.</p> <p>In the period 2021-2025 additional tasks (750,000 sq.m.) to these CHA on completion survey activities on the 15 SHA.</p>	<p>FSD: Performance special EOD spot tasks will be submitted to the FSD WAD Teams in accordance with official request from Government, Local Authorities, National Ministries and Agencies on destruction of any found separate or stockpiled mines and/ ERW.</p>	<p>NTS/TS Teams (UST): Survey task for 29 unsurveyed SHA, area size 1,498,852 sq. metres: 2021 - tasks for NTS/TS: 29 unsurveyed SHA (19 minefield records) are available: - 2 in DRD region; - 6 in VMKB region; - 21 in Khatlon region.</p> <p>There are 3 SHA without MF Records in Darwoz district. In the period 2022-2023 additional tasks for re-survey 17 HA (1,637,403 sq.m.)</p>	<p>End of Season.</p> <p>Some areas might be available for ops in December</p>
